The date Applicants filed the subject application is later than the effective date (May 29, 2000) of the patent term adjustment provisions of §4402 of the "American Inventors Protection Act of 1999." The U.S. Patent and Trademarks Office, in the Notice for Proposed Rulemaking concerning the implementation of these patent term provisions provided that that notice "places applicants on **notice** as to the actions or inactions that are considered by the Office (and may be adopted in the final rules) as circumstances constituting a failure [by applicants] to engage in reasonable efforts to conclude prosecution (processing or examination) of the application, and which will result in a reduction of any patent term adjustment.<sup>1</sup>" One of the alleged actions or inactions included in the proposed rulemaking as being exemplary of such actions or inactions constituting such a failure is the filing of an application without the basic filing fee, an English translation and/or an oath or a Rule 63 declaration. It is further provided in the proposed rulemaking that the period for adjustment of the patent term will be reduced by the number of days for the period *beginning* with the *filing date* of the application and *ending* on the date applicant *supplies* the omitted documents and/or fees<sup>2</sup>. Accordingly, Applicants are submitting the below identified document and fees to minimize the period of time that might be used in reducing the patent term adjustment.
